

LRDs: Baby Quasar Growing-up

with Galaxy Merging

© Matthee et al. 2023

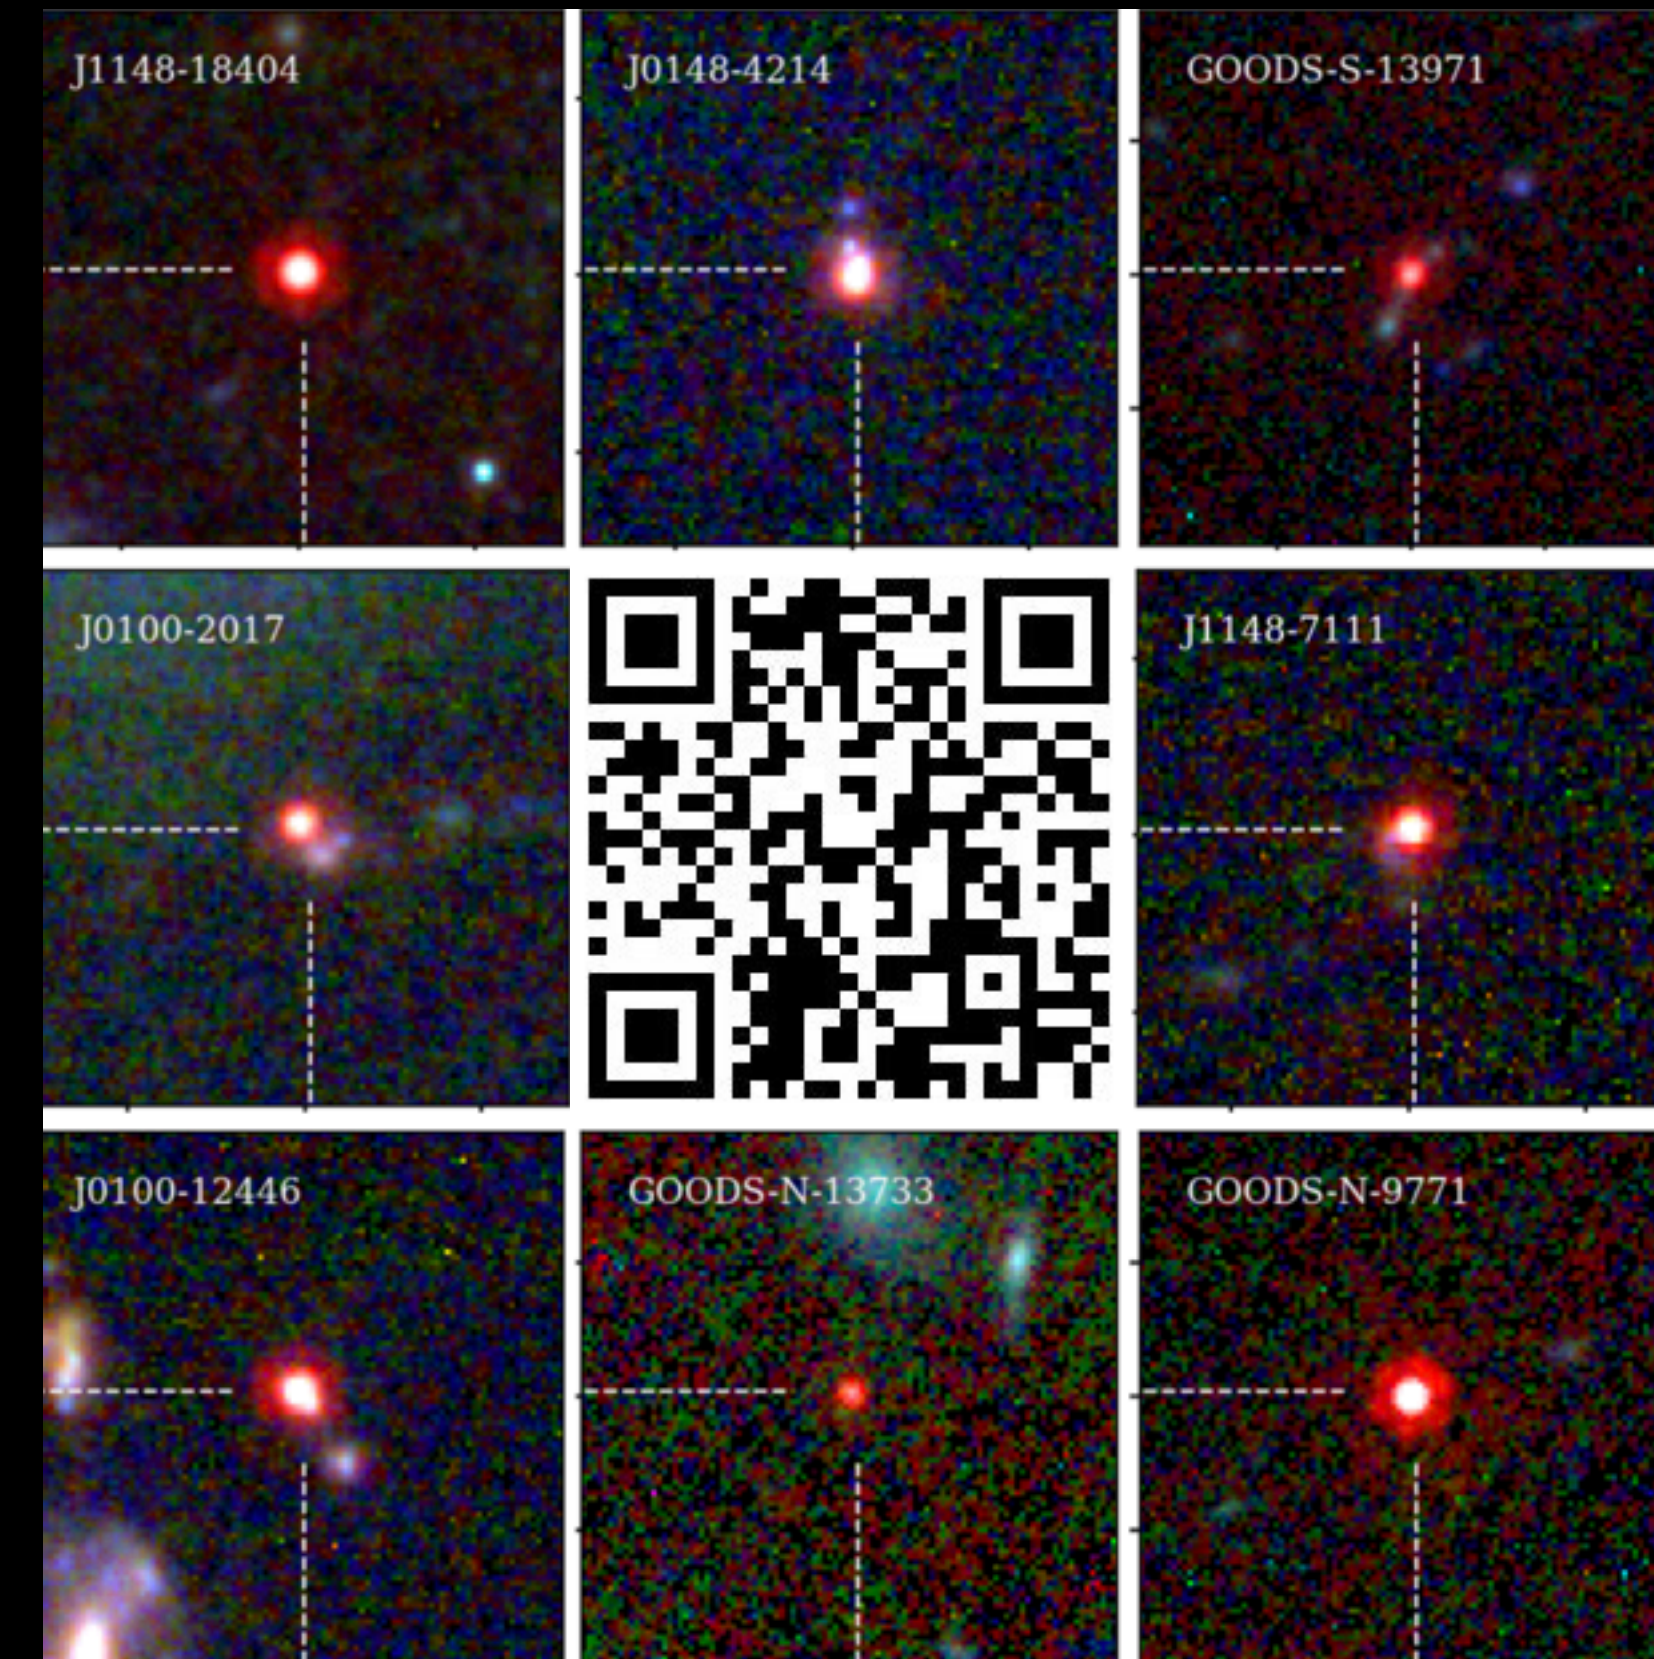

Feedback-Free Starbursts

© Dekel et al. 2023

Summary

- ▶ Little Red Dots are found when searching for bright quasar at high- z .
- ▶ People analysis the luminosity function(in density level) and the black hole mass function of LRD samples.
- ▶ LRDs are baby quasars with star-forming host galaxies in comparable brightness.

Acknowledge Dr. Guangtou for providing the topic as well as the slides design style.
